

---欢迎参加中国先进材料与工艺领域顶级活动---

Welcome to join The Leading Event of Advanced Materials and
Process Engineering in China

**SAMPE CHINA
2010**

**2010 SAMPE 中国国际先进材料与工艺技术展览会
SAMPE CHINA 2010 CONFERENCE & EXHIBITION**

**参展商邀请函
EXHIBITORS' BROCHURE**

时间: 2010年11月10日—12日
DATE: Nov. 10-11-12, 2010

地点: 上海汽车会展中心
LOCATION: Shanghai Automobile Exhibition Center (SAEC)

FORWARD:

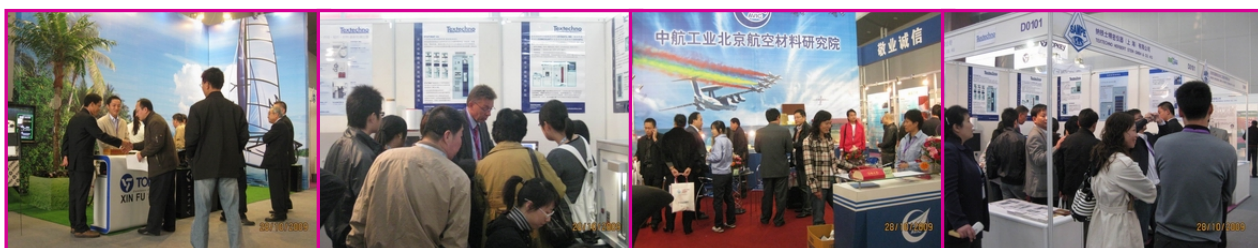

SAMPE (The Society for the Advancement of Material and Process Engineering) was formed in 1944. It is an international professional member society, provides information on new materials and processing technology either via technical forums, journal publications, or books in which professionals in this field can exchange ideas and air their views. As the only technical society encompassing all fields of endeavor in materials and processes, SAMPE provides a unique and valuable forum for scientists, engineers, and academicians. Material and Process engineering is the technology by which materials are developed or selected and manufacturing processes chosen which will convert those materials into products which meet the design, performance, producibility, quality, and cost effective criteria required.

SAMPE China Exhibition was set up in 2007 sponsored by SAMPE Beijing Chapter, SAMPE Shanghai Chapter and Materials Engineering Committee of Chinese Society of Aviation and Aeronautics (CSAA). So Far, the exhibition has become one of the largest scale, the most influenced event of SAMPE in Asia.

The SAMPE China 2009 was a big success in Tianjin in October. The main workshop during 3 days including: SAMPE CHINA 09 Exhibition, SAMPE CHINA 09 Conference, SAMPE CHINA Annual 09, Technology Course, Poster Session and The 1st SAMPE International Student Contest of Composite Manufacture. As the most important platform for industry, academia, research, but also the carrier of advanced materials in particular advanced composite products and technology show, exchange, cooperation. SAMPE China 2009 Exhibition had the exhibiting area of 4,000 square meters, 25% increase over last year. Exhibitors came from China, the United States, Germany, France, Britain, Austria, Switzerland, Japan, Taiwan, Hong Kong and other countries and regions, exhibiting advanced composites materials, raw materials, manufacturing technology and processing equipment, design and testing and testing instruments, tools for designing and simulation, material engineering and applications. In the exhibition, nearly 3,000 professional visitors from various countries and regions, came to visit the exhibition for marketing, purchase, and technical communication. SAMPE Journal, the official journal of SAMPE, reported this annual event in detail on color-printing pages. The EI indexed journal, *Journal of Material Engineering*, published a special issue for this event.

As customary, SAMPE CHINA 2010 will move to the biggest city of China, Shanghai after the WORLD EXPO 2010.

We are sincerely inviting all the experts and colleagues working in this area to participate in the event to share your R&D experiences and knowledge and exhibit the new technology and products with the Chinese colleagues and international participants.

SPONSORS: SAMPE Beijing Chapter SAMPE Shanghai Chapter

Shanghai World Expo Group National Key Laboratory of Advanced Composites, BIAM
Materials Engineering Committee of Chinese Society of Aviation and Aeronautics (CSAA)

CO-SPONSORS: SAMPE IBO (Headquarters) SAMPE Europe SAMPE Japan Chapter
China Chemical Fibres Association SAMPE Taiwan Chapter

ORGANIZER: Beijing UFT Conference & Exhibition Co., Ltd

SPECIAL SPONSORS:

SCHEDULE:

Registration/Building-up Period: 8-9 Nov, 2010

Conference Period: 10-12 Nov, 2010

Exhibiting Period: 10-12 Nov, 2010

Removal of Exhibits: 12 Nov, 2010

EXHIBITS:

1. Advanced Materials, high-performance Composites: Nano-composites, Natural Fiber Composites, Bio-composites, Smart Composites, Functional Composites, Environmentally Friendly Composites, etc.
2. Raw and Supplementary Materials for advanced Composites: Reinforcing Fibers, Matrix Materials, Sandwich Materials (Foams and Honeycombs), Tooling Materials, Supplementary Materials in Forming, Adhesives, Coatings, etc.
3. Composite Manufacturing Technology and Process Equipments: Forming Technology and Equipments, Process Technology and Equipments, Low-cost technology, etc.
4. Testing and Testing Methods of Composite Structures and Properties: Testing and Characterizing Methods of Mechanical, Chemical and Physical Properties, and the Instruments.
5. Composite Applications: Aeronautics, Space, Marine, Railway, Automotive, Engineering, Wind Energy, Ground Transport, Electronics, Defense, and Sports & Leisure etc.
6. Digital Technology and CAE System of Composite Materials: Modeling Technology, Model-building Analysis and its Software, Digital Equipments, Database, etc.
7. Repair technology for advanced composite(NDE, Process technology and equipment)
8. Recycle technology and equipment.

COST of the EXHIBITION:

1、Cost of participation:

□ **Package booth** USD 2200.00/unit 3m×3m=9sq.m

A standard package Booth (per 9 square meters) includes: Panel walls on all closed sides of the stand, Fascia board with exhibitor's English and Chinese name thereon, One information counter and Two chairs, Two fluorescent light, One waste paper basket, Carpeted flooring.

□ **Raw Space** USD 220.00/sq.m, Indoor Raw Space (minimum area 36 sq.m.)

Special designs, layout and fitting may be arranged by exhibitor at additional cost by direct application to our Official Booth Contractor.

NOTE: If you should choice of corner, you must get a 20% raise to pay.

□ **Special Discount (Full Payment date)**

Before 20 April, 2010 Members USD 1870.00/unit or USD 187.00/sq.m.

 Non- Members USD 1980.00/unit or USD 198.00/sq.m.

Before 30 July, 2010 Members USD 1980.00/unit or USD 198.00/sq.m.

 Non- Members USD 2090.00/unit or USD 209.00/sq.m.

2、The Service

The organizer provide the following service to all exhibitors

Free listing in the official exhibition directory; General cleaning of exhibition area; 24-hour on-side security; Stand construction and dismantling (for Package booth only); Assistance with business conducting.

Optional supplies & services include:

Advertisement in the Exhibition Directory; Exhibition on-side advertisement; Another Advertisement; Extra electrical; Freight forwarding; Preparation of artwork; designs and souvenirs etc. Printing of promotional literature; Travel and accommodation; Official invitation letter for visa application; IDD or DDD lines for telephone; facsimile; Manpower including interpreters; attendants; reception girls.

3、Participation procedures

1、 Fill out the Application Form and return to the organizer. Application by fax is also acceptable.

Please note that the application deadline is 30 Sep, 2010.

2、 No space/booth will be allocated until payment is received. Booth allocation is on the "First-come, First-served" basis.

4、 Advertisement in the Exhibition Directory

USD

| Back cover | Inside front cover | Inside back cover | Inside Page |
|------------|--------------------|-------------------|-------------|
| 2,500 | 1,700 | 1,700 | 1,200 |

5、Advertisement at the Exhibition

USD

| | Item | Quantity | Amount |
|---|---------------------|----------|-----------------|
| 1 | Exhibition bags | 1,000 | 5,000 |
| 2 | Lanyard | 20,000 | 8,500 |
| 3 | Credentials | 20,000 | 8,500 |

[2010 Shanghai, Attention from all over the world]

Innovation and Interaction

Grand international gathering

Cross-culture dialogues

More than 200 countries and organizations participant, 70,000,000 visitors.

2010 Shanghai, attention from all over the world.

[Brief Introduction]

Co-invested by Shanghai World Expo Group Co.,Ltd.and Shanghai International Autocity Development Co.,Ltd.,Shanghai Automobile Exhibition Center(SAEC) is a modern exhibition venues that is located in the Auto Park of Shanghai

International Automobile City.Shanghai Automobile Exhibition Center(SAEC) is the first of its kind in China specially designed for the purpose of large-scale automobile expositions,and is an indispensable part to forge Shanghai into China's strategic center for auto industry ,The total construction area:60,000M².and 30,000M² of convention and office area. The exhibition center have 1200 standard booths. (and the specification of each booth is 3*3 meters)

Shanghai Automobile Exhibition Center is a modern exhibition center. The general architectural design of it was provided by IFB, the Germany famous architectural design company. The center is based on the design concept of “natural environment and movement” interrelation, makes Auto Thene Park and the whole Automobile City to be

integration. It will rely on automotive industry, integrates exhibition, display, conference, business, advertising, restaurant and various kinds of services and facilities, which not only provides a display and business communication platform for automobile manufacturers and the component manufacturers home and abroad, but also drives the development of the relevant industries in the automobile city, fulfills the strategy objective of Shanghai becoming China automobile industry center.

Shanghai Automobile Center exhibition provides integrating exhibitions, display, conferences, offices. Not only can it undertake large-scale auto parts exhibitions, as well as other kinds of trade show, and equipped to handle all types and sizes of meetings,such as business meeting,enterprise annual meeting,and new product release conference,etc.

Taking the No.11 subway can directly arrive the center.

For more information about Shanghai Automobile Exhibition Center(SAEC), Please visit <http://www.saec-sh.com>
